

Hector Gost Godoy

Product Designer and Service Designer

hectordrigo@gmail.com +39 3505403101

Website: <https://hectorgostgodoywebsite.vercel.app> Location: Bologna, Italy

Professional Summary:

- Junior Product Designer with experience in physical and digital products, including a PWA
- Design follows understanding, from defining the right question to testing, iterating, and landing on solutions that hold
- Led self-organized project teams; comfortable both contributing and driving
- Spanish-born, Italy-based, open to opportunities abroad

Project experience:

Crossy Bee **Project Owner** 2-person team

2026 - Ongoing

- The citizen science PWA started as a thesis project. Now, together with a full-stack developer, we are working to evolve it into a native app
- Users photograph pollinators, get AI species cards, then play a Crossy Road-style mini-game to keep the insect in your personal collection; observations archived in Darwin Core format
- Built after independent study in entomology and interviews with entomologists and beekeepers

Rigatone **Product Manager & Product Designer** 3-person team

2025 to 2026

- We designed and produced custom trophies for Pasta Moves' parkour event in Milan and Catania
- We built two pasta-shaped awards, farfalle and penne rigate, celebrating Italian culture and brand identity
- Coordinated a cross-disciplinary team of two designers and an engineer, bringing together different skill sets to reach shared, quality decisions
- We conceived a penne rigate keychain as a self-funding mechanism to offset production costs

Eden **Product Designer**

2025 to 2026

- Designed and built furniture from reclaimed pallet wood for a cultural association in Bologna
- Pallets chosen to match the association's self-made aesthetic
- Produced a bench and a coffee table, maintaining pallet-jack compatibility for mobility
- Designed a feedback form where the bench narrates in first person, collecting: comfort ratings, maintenance notes, and feature requests

Education:

University of Bologna | Industrial Product Design | 2024-2026

Skills:

2D & 3D modeling (Blender, Fusion 360, AutoCAD 2D, Figma)
Full-stack AI-assisted development deployed in the Google ecosystem
Project Management (Scrum, Kanban, MoSCoW method)

Languages:

Native Italian | Native Spanish | English B2
